

# EmergTHERM by Burlodge

First Aid for Foodservice

The power goes out, and hours could pass before water temperature is restored for sanitizing dishes. However, you have patients to feed now. What do you do? Depend on EmergTHERM, the cost-effective, single-use solution for dishwasher breakdowns, power outages and other potential disruptions to your foodservice operation.

## The EmergTHERM Solution

EmergTHERM helps you manage the unexpected, and in foodservice, unexpected events come with the territory. Staff shortages can occur, water contamination is always a possibility, machinery can malfunction—you may even need to respond to a pandemic event. It's great to know you can depend on single-use, sanitary EmergTHERM trayware.

## Reliable Performance

EmergTHERM presents lightweight yet sturdy Dixie Stoneware® for easier handling by patients and staff alike. Dixie Stoneware is retherm-friendly so meal temperature and patient satisfaction are maintained. And because it looks great while working hard, Dixie Stoneware delivers the maximum in meal quality, presentation and ease.

EmergTHERM by Burlodge offers the full complement of dishware required for meal presentation\*:

- Dixie Stoneware
  - 8" or 9" plate and matching plate cover
  - 6" plate
  - 6 oz. or 16 oz. bowl and matching lid
  - 8 oz. coffee cup lid
- Burlodge
  - 6-piece cutlery kit
  - 4-piece fluid cutlery kit

*\*Seven days of contingency dishware stock is recommended.*

## Single Use: Safe and Simple

Single-use Dixie Stoneware makes even more sense for foodservice operations when you realize fewer hands touch it fewer times. You can serve meals with confidence that your dishware is dependably clean, every time you serve. Even stacking wet dishes can increase the risk of contamination—a risk your kitchen won't have to contend with when you use Dixie Stoneware.

## EmergTHERM for Every Day

EmergTHERM is as perfect for everyday use as it is for occasional use. A single-use system is a snap to implement—your products are delivered in sealed and sanitary packaging for easy storage and access. Streamline your operations for greater efficiency because Dixie Stoneware doesn't require dishwashing. Cost savings can be considerable. Imagine what you'd save by virtually eliminating your dishwashing function.

## Trusted Experience

Dixie® is a leading innovator and manufacturer of paper and plastic single-use tableware for the foodservice industry. Our product line features a comprehensive offering of cups, containers, plates, bowls, trays, cutlery and much more. Save time, effort and cost with Dixie—we bring efficiency to the demanding pace of foodservice operations.

Burlodge is a world-class supplier of equipment designed specifically for rethermalization and distribution of meals in hospitals, schools and other institutions. Our considerable experience means we clearly understand what our clients need to do their jobs quickly, efficiently and on budget.
