TOGETHER, WE WORK.

EMERGOTHERM
FIRST AID FOR MEAL SERVICE

The Emergtherm Solution

Emergtherm helps you manage the unexpected. Staff shortages can occur, water contamination is always a possibility, machinery can malfunction, and you may even need to respond to a pandemic event. It is great to know you can depend on single-use, sanitary Emergtherm trayware.

Reliable Performance

Emergtherm consists of lightweight yet sturdy Eversio16 Dishware, for easy handling by clients, patients, and staff alike. Eversio16 is regeneration friendly, so meal temperatures and patient satisfaction are maintained. It looks great while working hard, Eversio16 delivers the maximum in meal quality, presentation and ease

One Use, Safe and Simple

One use Eversio16 makes sense for food service operations. You can serve meals with confidence because your dishware is clean, every time. All of your Eversio16 items are inside one Emergtherm box, so multiple handling does not occur.

A Recyclable Option

With Emergtherm you guarantee more than risk management for your facility, you inherently make the environmentally conscious choice for your operation. All materials are recyclable, except the cutlery sets which are biodegradable.

Trusted Experience

Burlodge has offered one use food service products for over 15 years. The Eversio products were re-developed by Burlodge in 2016 to keep the promise of constant and efficient innovation. The new line, Eversio16, is tried and tested across North America with great success. Burlodge now offers these products together in one box — Emergtherm.

Everything Inside One Box

Emergtherm is one box. Inside are 50 of each of the products you need. One order code, one price, one box, one storage area — lots of solutions.

What is in the Box?
